

X-Grid Anchor Pegs

Strong and Robust Anti-Pull Fixing Solution

The ribbed, **anti-pull** design of our anchor pegs prevents the fixings from being pulled out of the ground. They ensure that all X-Grid panels and other products remain in place under even the most testing of conditions. Manufacture from a durable plastic polymer, these anti-pull pegs are also **weatherproof and UV resistant** which ensures each peg has a long serviceable life and will not rot away or break down over time. Available in packs of 1, 5, 25, 50 and 100, you can order the precise amount of pegs for your upcoming project which requires a **strong, versatile, safe** and **easy to use** fixing. Designed with a sharp point, each peg can effectively penetrate a range of fabrics and surfaces.

RUBBER GRASS MATS

RUBBER PLAY TILES

BELT CONVEYORS

STEEL FIXING PINS

PLASTIC FIXING PEGS

LAWN & BORDER EDGING

FORCED ACTION MIXERS

WATER STORAGE CRATES

RESIN BOUND GRAVEL

VERSATILE

The strength and ease of use make this the ideal anchor for use with X-Grid, membranes, meshes & more

DURABLE PLASTIC

Made from plastic, these anchors are strong, robust & weatherproof so will not rot away or break down over time

SAFE

A safer alternative compared to metal fixings when used near power cables, machinery and animals

INCLINES

Used to secure and hold X-Grid panels in situ when installed on to a steep incline

ROBUST

The material, design & manufacture makes this anchor strong enough to deal with vehicle weight & pressure

ANTI-PULL

The ribs on this anchor peg make the fixing anti-pull so it is less likely to move under pressure

SHARP POINT

Features a sharp point to help penetrate a fabric or sub-surface quickly and effectively

KEY FACTS

- » Length: **200mm**
- » Width: **70mm**
- » Diameter: **25mm**
- » Weight: **0.28kg**
- » Pack sizes: **Single, 5, 25, 50 & 100**
- » Colour: **Black**
- » Material: **Co-polymer Polypropylene**
- » Pegs used per sqm: **5 pegs**
- » Anti-pull ribs: **Yes**

APPLICATIONS

X-GRID

Used mainly with X-Grid when installed on an incline to prevent movement

MEMBRANES

Can be used on almost all membrane installs where a strong fixing is needed

GRASSMESH

Secures and holds GrassMesh in place that will experience machinery traffic

TURFMESH

Fixes & holds TurfMesh in place when vehicles will be driving over the mesh

SHED BASE

Holds plastic shed bases in place before the garden building is installed

HOT TUB BASE

Secures hot tub bases in place before & after the hot tub has been installed

Installation Instructions

1. Follow the installation guide of the product or products you are wanting to install for your project up until the point of using your X-Grid anchor pegs. You can continue following that installation guide once your pegs are in place and secure.
2. With your X-Grid panels, membrane or meshes in place you can begin using your anti-pull anchor pegs.
3. We recommend using 5 pegs per sqm so ensure you evenly spread the anchors around. More can be used dependent on the intended use.
4. Using a rubber mallet, hammer the peg through a gap in the X-Grid and mesh or pierce the membrane sheet. Hammer the peg down until it is sitting flush with the product.
5. Repeat this process over and over until you have secured the entire area and that you are satisfied your grid, mesh or membrane will not migrate.
6. Continue with the rest of your chosen products installation.

PRODUCT CODE	COLOUR	DESCRIPTION	DIA. (mm)	LENGTH & WIDTH (mm)	PACK SIZE	PALLET QTY	UNIT WEIGHT (kg)
XGAP200B	Black	Single X-Grid Anchor Peg	25	200mm x 70mm	1	-	0.28
XGAP200B-005	Black	5pk X-Grid Anchor Peg	25	200mm x 70mm	5	-	1.44
XGAP200B025	Black	25pk X-Grid Anchor Peg	25	200mm x 70mm	25	-	7.2
XGAP200B050	Black	50pk X-Grid Anchor Peg	25	200mm x 70mm	50	-	14.4
XGAP200B100	Black	100pk X-Grid Anchor Peg	25	200mm x 70mm	100	-	28.8
